

PLASTICS MARKETING, INC.

*The Complete Source for Industrial
and Institutional Poly Bags, Films, and Tubing*

The Complete Source for Industrial and Institutional Poly Bags, Films, and Tubing

Plastics Marketing, Inc. brings over 20 years of service excellence to the paper, packaging, industrial, and medical distribution businesses. Plastics Marketing, Inc. has been built on developing new products that solve our customer's business issues. Our product line includes institutional and industrial products including polyethylene and related olefins made into bags, films, sheeting and tubing.

Since 1984 we have focused on building strong associations with regional and national manufacturers of industrial products. Our long-standing relationships allow us to offer high-quality products that are competitively priced.

The broad spectrum of products and industries that we sell are specifically designed and engineered to meet our customers' applications. Whether we deliver standard or custom plastic packaging, PMI always exceeds product and service expectations.
